

McLeod Aggregates Ltd aims to achieve outstanding performance in environmental practice by minimizing the environmental impact of all its operations, preventing pollution and striving for continual improvement in its environmental performance whilst working towards more sustainable operating practices.

We commit to comply with relevant environmental legislation, regulations and with other requirements to which the organisation subscribes.

We aim to optimize our use of natural resources and reduce waste generated by our operations.

Protection of the environment is a management responsibility of prime importance.

The management is responsible for ensuring that appropriate arrangements are made for the fulfillment of this policy and for monitoring its implementation and effectiveness.

To manage our impacts on air, water, land and people we will:

- Implement and communicate an effective EMS policy to all stakeholders.
- Record, report, investigate and take action to address environmental incidents and community complaints.
- Ensure company compliance with statutory requirements and best practice.
- Work in partnership with local communities and stakeholder expectations in being a responsible neighbour.
- Enhance environmental awareness of employees through structured training.
- Ensure all staff have adequate resources and levels of authority.
- Encourage the adoption of sound environmental principles and practices among suppliers, contractors and customers.
- Preserve and manage our resources effectively through eliminating, reuse and recycle of waste.
- Communicate the policy to all employees.

Neil McLeod
